

Luxury Spa Suite Restroom Trailers

INSTALLATION REQUIREMENTS

There are some important factors that you need to consider before hiring one of our Luxury Spa Suite Restroom Trailers. Please read the following requirements carefully.

Access

Make sure it will fit where you want it to go. We require reasonable flat ground with enough room to manoeuvre in to your desired position with the tow vehicle. These are heavy trailers. We also require room for the stairs to fold down. Remember. Think about over head trees and branches Don't forget deep driveway gutters. Email photos of site and access if you are unsure. Please have all plants trimmed and obstacles removed before delivery.

Dimensions in Transit

- 2 Station Selfie - 2.4m wide by 4.5m long plus tow vehicle

- 4 Station Deluxe - 3.5m wide by 7 m long plus pedestrian access passenger side and rear

Electricity

The requirements for the air conditioning/heating only is one 10 AMP power supply of 240 Please ensure the power point is in good condition. We supply 25 metre power leads tagged and tested for your safety. No power boards or double adaptors can be used. 3KVA generator can be used for remote locations. A safety switch is built in to the Restroom Trailer.

Water

The Restroom Trailer has its own water tank which we prefer to fill on site if possible. The unit can be connected to a tap as well.

Sullage

All waste is contained in the Restroom Trailer.

If we cannot install due to what we deem as unsuitable access or services you may forfeit your whole hire payment. A pre-hire inspection can be ordered. Our representatives are good drivers but are not precision stunt drivers. We will not risk damaging our equipment or risk injury to our employees.
